Email: rahilikram67@gmail.com

Phone: +92-308-8212344

Address: ramzan karyana store, Mandyala Tegha, Gujranwala

Experience

Fiverr (2020-2022)

I was a second level seller on fiverr. I was providing JS/TS services in React.js (+Native), Angular and Nodejs.

Upwork (2021-*)

Please visit my upwork profile to see my experience and years of working in website development.
https://www.upwork.com/freelancers/~01208cc515c1264744

Skills

React.js
I can work with both react.js JS/TS templates without any issue. I have excellent state management grip with hooks and Redux toolkit. I have one year experience in this because of upwork's most demanding skills last year.

Angular (8+)
Angular was first of my skills that I self learnt during my education. I did my last year project using MEAN Stack. My live example deployed on playstore using Angular and IONIC
https://play.google.com/store/apps/details?id=com.cryptonia.app

Node.js

I didn't work much in Node.js commercially. But I have node.js skill. I can develop Full Stack (MEAN+MERN) application using Node.js. I can provide basic CRUD operations like authentication, api calls using Express.js.

HTML+CSS/SCSS/Tailwindcss/Bootstrap+ Vanilla.js

As every web developer I started from these three core skills of web development to provide a robust, optimized and magnificent UI.

MongoDB + Firebase

Mostly worked with NoSql databases as the names of that bases mentioned above but I can also work with SQL databases.

Education

I hold a bachelor's degree of BSCS from GCUL Lahore.
